

Certifications

- Every device subject to rigorous functional testing.
- Testing with professional Fluke tools.
- Certification to CEI EN 60204-1 and CEI EN 60439-1
- UL-approved for the US market.

Testing and certifications: all in order.

We subject all our electrical cabinets to a comprehensive battery of functional tests to ensure that they are handed over in perfect working order.

The final stage of every job is to check the system using professional Fluke tools and obtain the legal certificates to the CEI EN 60204-1 and CEI EN 60439-1 standards, with UL approval for the US market.
